Psmlighting offers you a big range of different colours. In this folder you will definitely find a colour that matches your interior. In our own paintshop, we paint the products carefully and with high quality powder coatings. The big advantage of our own paintshop is the shorter delivery time for our standard colours and products. We always work with high quality materials such as aluminium, inox or brass. RAL-colours are always on request.

Please note: the colours in this folder can differ from the real colours.

Endless possibilities

A cable is more than just a connection. With a wide range of colours, materials, and styles to choose from, it becomes an integral part of the design. Find the perfect match or create a striking contrast. The choice is yours.

Small detail, big difference

Often overlooked, always essential. Strain reliefs provide the support needed to keep textile cables secure and perfectly aligned, combining functionality with a clean, refined appearance.

A close-up photograph of several yellow braided textile cables. The cables are intricately woven, showing a complex pattern of threads. They are arranged in a way that some are in sharp focus while others are blurred in the background, creating a sense of depth. The background is a plain, light gray color.
